Vino Bianco d'Italia

CAMPO MINIMO
CASINO VECCHIO DEL CARRUBO
BIANCO D'ITALIA

Wine type	White
Grape	Riesling, Huxelrebe, Schaurebe
Origin Desitination	Bianco d'Italia
Vine growing system	Guyot
Density of plantation	4500 vines per hectares
Production area	Vineyard location: Casino vecchio del Carrubo, Contrada Li Marini, Li Marini Estate, Salento, Southern Italy. Ten kilometers from the sea as far as the eye can see, on a west/southwest-facing slope, approximately 100 meters above sea level; the temperatures are characteristic of a rather warm environment with very low annual rainfall and high temperature ranges. Sea breezes protect these grapes from harmful humidity.
Soil	Yellow soil, predominantly composed by clay mixed with sand, which lies above a very deep layer of limestone.
Harvest	Last ten days of July.
Vinification	The grapes are hand-picked onto trays. Vinification takes place in stainless steel tanks following a few hours of cold maceration.
Ageing	Stainless steel
Tasting notes	Golden yellow in color, with Van Gogh-like nuances, it offers a succession of aromas on the nose, including hydrocarbons, green apple, and fresh lime. The palate is fresh, with an extraordinary drinkability for dry Puglia.
Best served with	Wine of Carpocratian enjoyment, to be paired with oysters, as it tends to be drunk alone
Serving temperature	15-17° C

Campi Minimi are single parcels.

This is the parcel vinification of Casino vecchio del Carrubo. It is a record, a story which has not yet been told.

The time of the earth, the time of the rocks, the time of the vineyard, the time of the Antera all intertwine together here. And only this grape is the result.
